 - HEADS UP: This is documentary may too much and not hold the attention of little kids. Since I have a mix we broke it into 2 parts and watched half one day and the other half the next. This documentary also talks for a few minutes on mental illness and a case of suicide at around the 44 minute mark. Also, many deaths (some of children) are referenced. Preview first if you're concerned.
 - READ: (Optional tie-in) This PBS documentary touches for just a few seconds about the case of Mary Mallon - Read "1907 - The Woeful Plight of Mary Mallon" [in The American Story](#), by Jennifer Armstrong
 - SCIENCE: Take some time to check some age appropriate books out at the library that are about germs and infectious diseases of the time.
 - WRITE:
 - Littles: Color a picture and add an age appropriate sentence about something they learned that was interesting to them. You can have them narrate it to you while you write it if they are beginning writers.
 - Middles: Make a journal entry as if you were a child who came across from another country and entered America. Some things you might mention: How old you are, what "class" you came over in (first class, steerage, etc.), what country you came from, what language you speak, if you are healthy or sick, if you parents came over before you or not, what purpose did your family come to America for...
 - Olders: Research (or read the biography of) someone in history or in their family that came to America as an immigrant and write age appropriate retelling/report on their story.
